

Preparing and packaging your Denture for shipping

Clean and disinfect the appliance pieces with soap and warm water. Dry well.

Place everything inside of the resealable bag.

Wrap the appliance and pieces individually with bubble wrap or newspaper.

Place wrapped appliance in shipping container then add additional packing material to take up excess space.

Print a copy of your completed order form. Place it inside box, and tape up the box.

Deliver the package to your mail carrier or nearby Post Office.
